<b>Description of your business and expertise (150 – 200 words)</b>	
<p>In my 15 years career as a HR (people and process) executive I have become person of trust for my colleagues and friends.</p> <p>That is how I started to see myself as a coach.</p> <p>Within a few blinks I started to provide people with tools that helped them to learn, be closer to their goals and achieve their dreams.</p> <p>Later on I invested in my education (psychotherapy course and license) as well as HR courses.</p> <p>Now I can proudly say that I have clients from entire South East Europe, East Asia and Africa with whom I am working on personal and professional development.</p> <p>If you want to establish your authentic signature on the market and in your life that we have a topic to talk about and to work on.</p>
