Description of your business and expertise (150 – 200 words)	
<p>Profi laboris d.o.o. is a family company dealing with occupational safety and health, fire protection and environmental protection, operating stably in the market for six years. Our company is specialized for making studies, testing installations, training workers, and assistance in conducting activities related to protection for our contract customers. In 2015, the company received a grant from the Ministry of Entrepreneurship and Crafts to introduce a single information system in business processes, and the project is co-financed by the EU's European Regional Development Fund. The funds were used for the introduction of new computer systems, such as DMS, CRM, digital records and work orders, smart printing , as well as for the optimization of business processes and activities taking place within the company.</p> <p>The basic business principle of Profi laboris is working in accordance with the laws and building long-term and quality relationship with customers. Accordingly, we always give our clients a guarantee that they will always have the expert in occupational safety and health at their disposal.</p> <p>In coming years the company plans further employment, and our goal is to become a company recognized and appreciated for doing business according to highest standards.</p>
